

ECOLLINS ELECTRICAL COMPANY INC.

The Trusted Name in Electrical Contracting Since 1928

Solutions

The fact that Collins Electrical is one of the largest electrical contractors in Northern California allows our clients the advantage of superior purchasing power and reliable vendor relations. These advantages result in our ability to provide competitive bids, meet strict deadlines, always stay within budget, and coordinate the most difficult of projects with a variety of other trades. Furthermore, change is instituted on a daily basis in order to stay ahead of our customers' needs.

"... We looked at a variety of companies when we put our project out to bid... our management team unanimously chose Collins Electrical, and through every step of the process we knew we made the right choice."

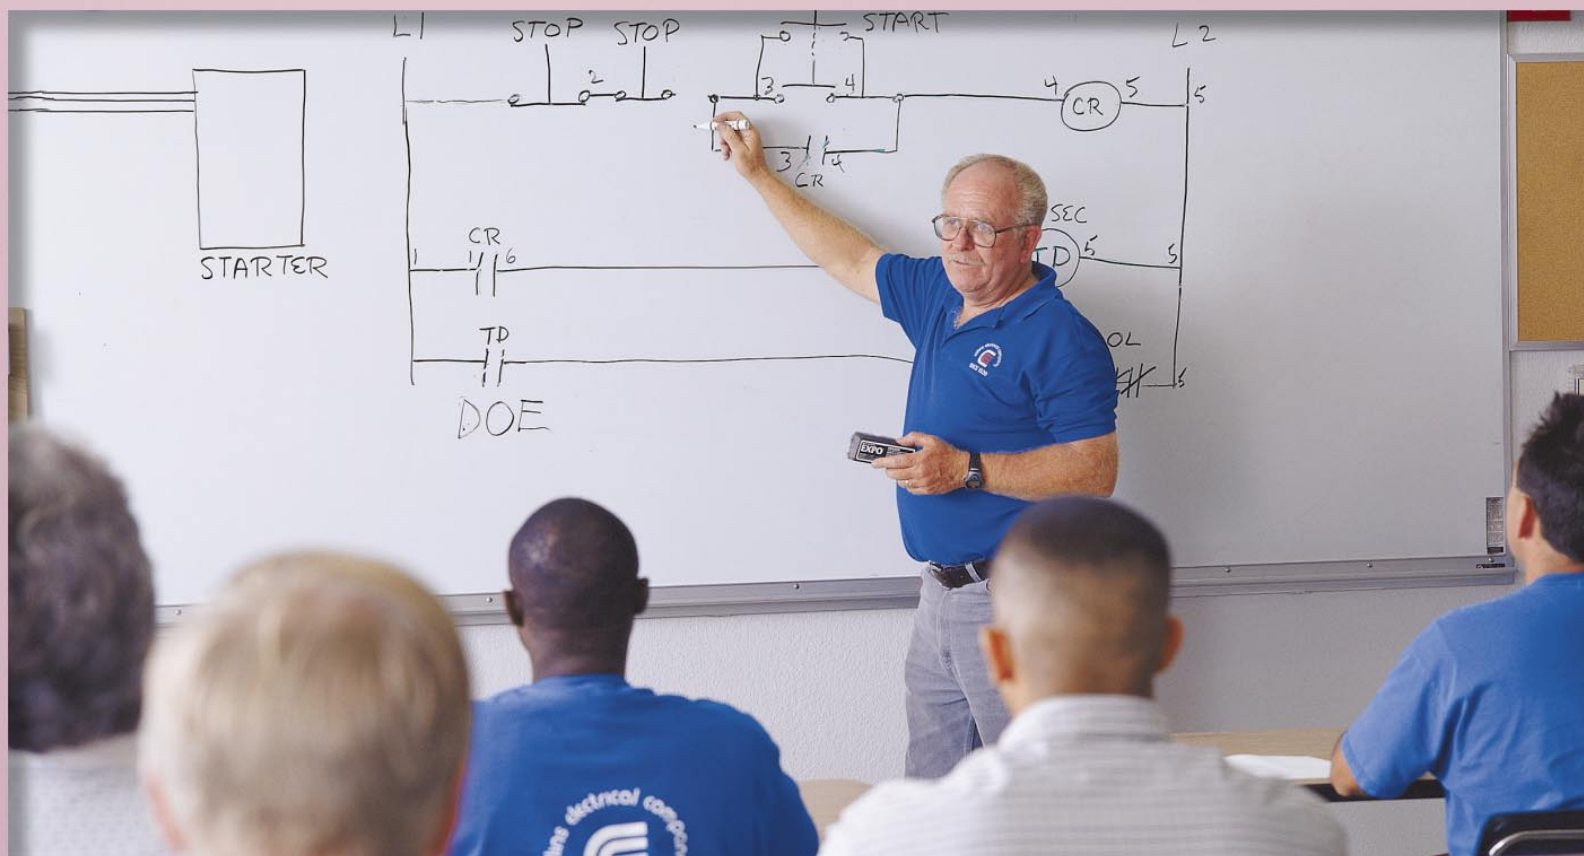

John Brenden, Owner
Brenden Theaters – Modesto, California

Experience

When you compare experience, Collins Electrical stands head and shoulders above all the rest. We provide our customers with technical skills, management expertise, and financial strength unmatched in our industry. Through our extensive office and field training programs, we develop electrical craftsmen that stay educated and up to date with today's growing technology needs and concerns.

- Office / Field Training Programs
- Skilled Craftsmen
- Full-time Safety Inspectors
- IBEW Union Affiliation
- Long-term Committed Employees
- NECA Affiliation Over 50 Years
(National Electrical Contractors Association)

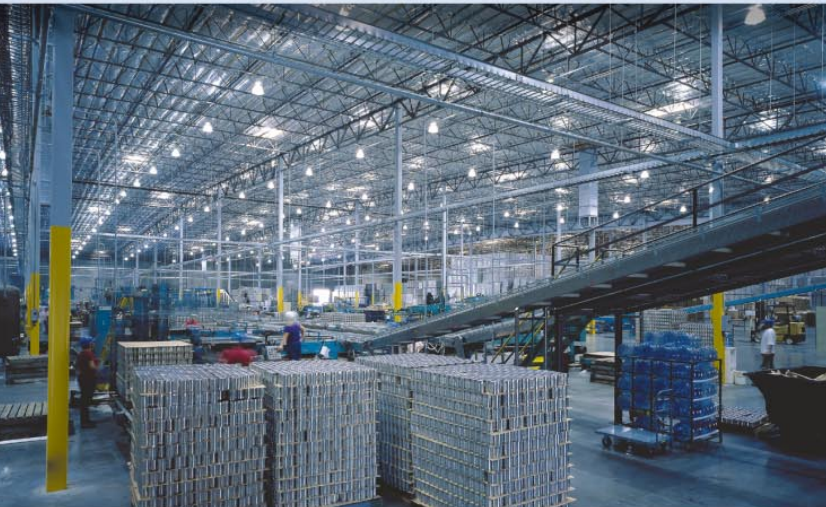

"...From the project manager to the installers, it was obvious that they had their act together. Everyone was professional and focused on the job at hand... every step of our project went just as they had outlined – no surprises, no excuses..."

Jerry Wilson, Vice-President of Operations
Good Samaritan Hospital – San Jose, California

Versatility

With an extreme diversity of real market experience, we provide our clients with creative solutions from simple low voltage systems to the most challenging of construction projects. At Collins Electrical, we contribute to the whole construction team's success. With excellent communication skills and a technical understanding of the construction process, our clients remain confident that their projects will stay on schedule and within budget. In fact, our schedule development and detailed project tracking systems, including web-based project management tools, have consistently been one of our company's trademarks.

- *Medical Systems*

"...Our project was a logistical nightmare – multiple contractors, a midstream strategy change and unexpected legal issues... fortunately Collins Electrical took so much of the pressure off by coordinating with a variety of contractors..."

Paul Mercurio, Plant Manager
Teichert Aggregates – Stockton, California

Design-Build

One thing that sets Collins Electrical apart is our extraordinary strength and excellence in the area of design-build services. With the latest in web-based technology and a highly skilled and experienced engineering and design team, we are capable of coordinating the entire process from concept to completion. Offering accelerated delivery, we are always willing to work closely with other architectural or engineering firms to provide complete electrical structure design. This design team becomes critical in the cost control and systematic reviews of the engineering process, while providing a single point of responsibility. We also provide complete Errors & Omissions (E&O) insurance coverage on all design-build projects.

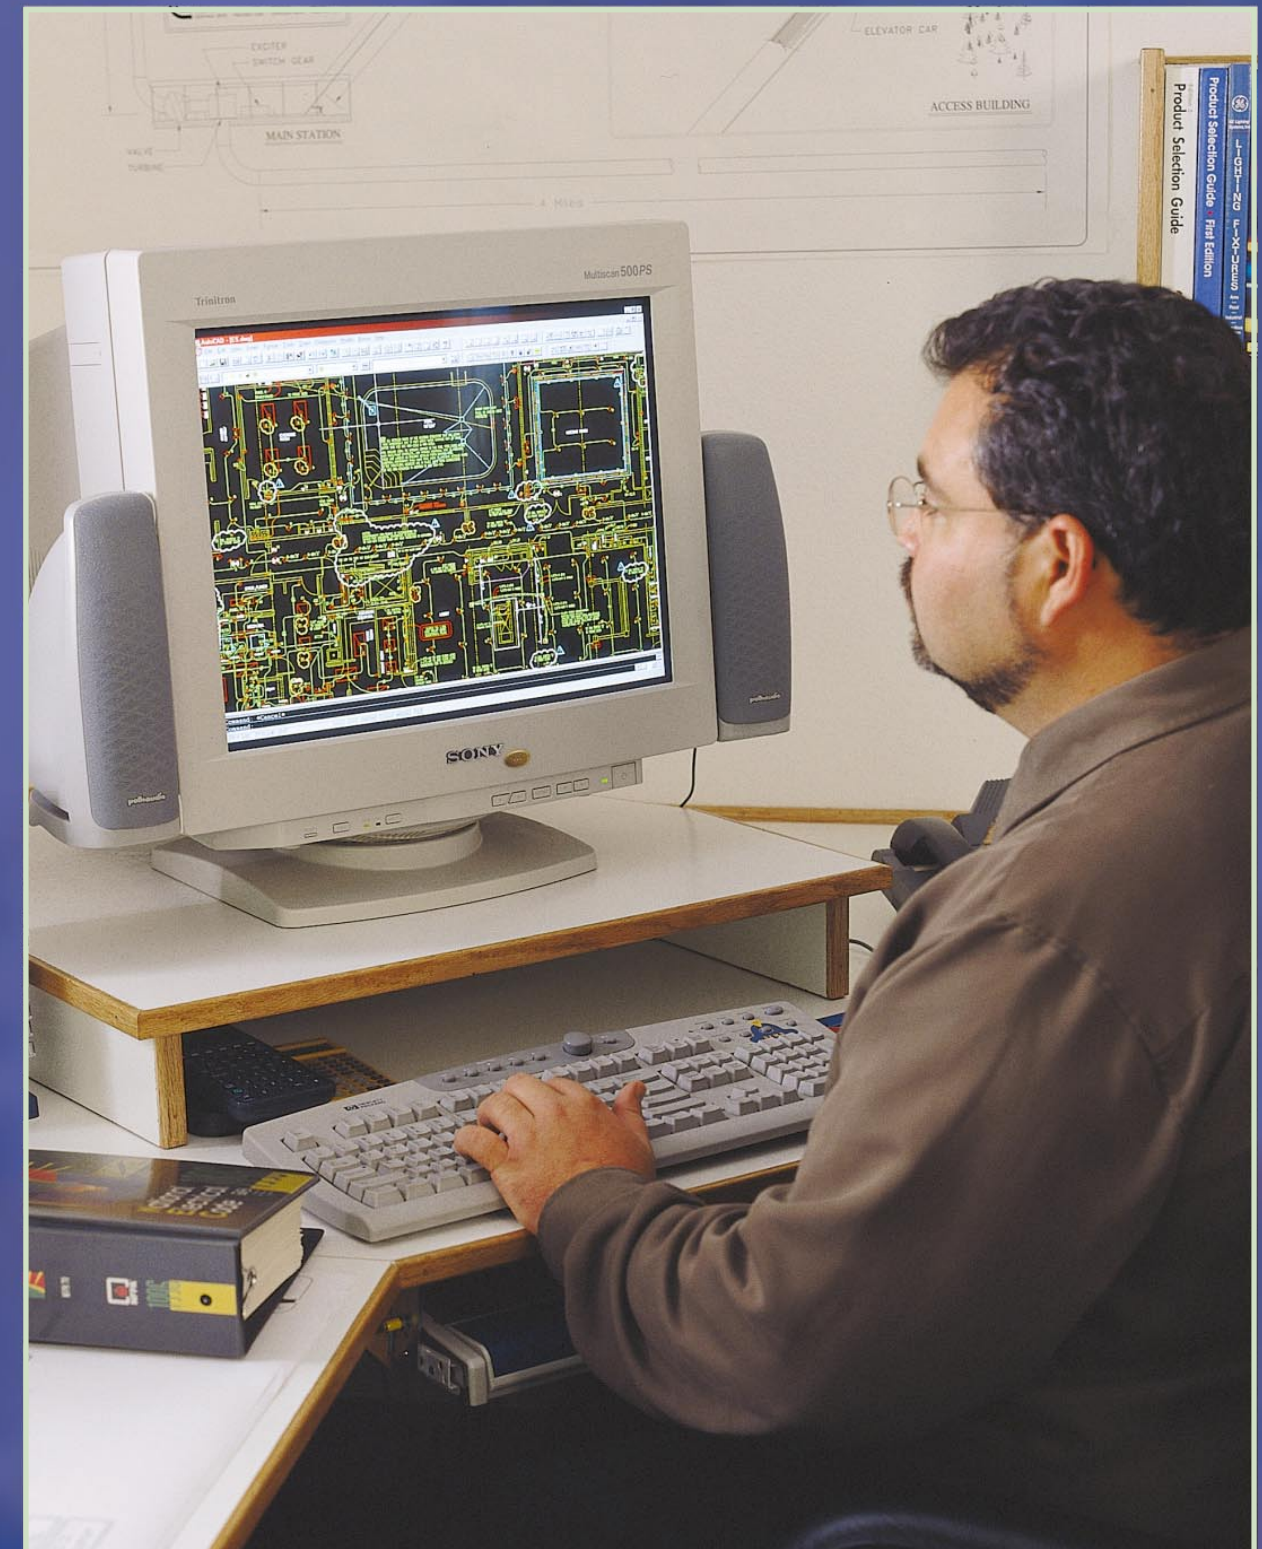

Engineering And Design Includes:

- *Utility Coordination*
- *Site Lighting*
- *Switchgear & Power Feeders*
- *Lighting & Power Distribution Devices*
- *Special Systems*
- *Telecommunications*

Proposals Include:

- *Lighting Layouts*
- *Power One-Line Diagrams*
- *Floor Plans*
- *Conceptual & Unit Costs*
- *Detailed Project Scope*
- *Budget Allowances*

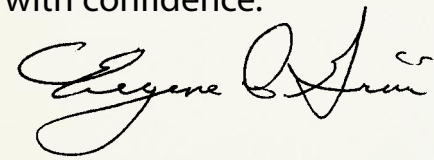

“...Collins Electrical’s design-build expertise not only simplified the process through streamlining communications, they saved us substantial start-up money by allowing us to make informed decisions and optimize our resources...”

George Macricostas, CEO
Raging Wire Telecommunications – Sacramento, California

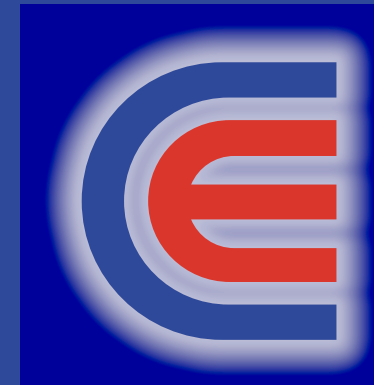

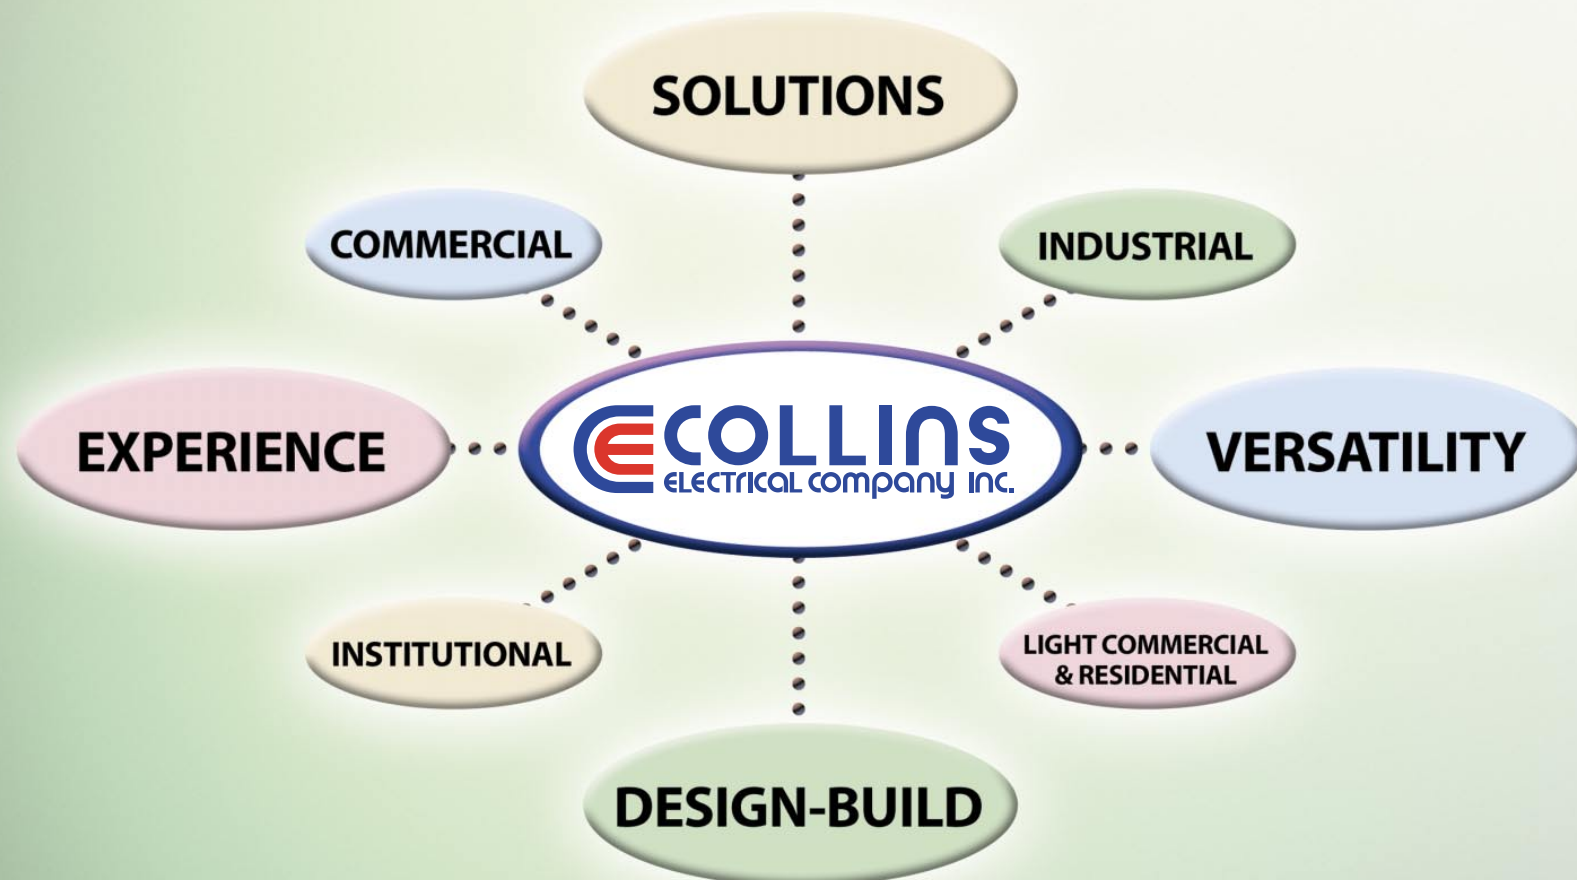

Mission

Our mission is simple. To be the best electrical contractor and engineering firm in our field; experienced, responsive, competitive, and on-schedule. These qualities translate into excellence and trust... the same trademarks that have carried our reputation for over 70 years.

"I'm proud to say that Since 1928 Collins Electrical has been a growing, dynamic business that knows the meaning of an "honest day's work". Through extraordinary personal service, attention to detail, and commitment to our customers' needs, we've earned a reputation for excellence that keeps our clients coming back again and again, and consistently referring Collins Electrical with confidence."

Eugene C. Gini, President / CEO
Collins Electrical
