SEE, FEEL and HEAR the EXCITEMENT!

EXPERIENCE the PROFITS!

The *Virtual Voyager*

PROFIT CENTER

The Virtual Voyager was custom designed to be cost effective, and produce unlimited game play and excitement. These features create low overhead and maintenance leading to maximum income and profits.

- ★ Generate up to \$20,000 income per month off just one Virtual Voyager!
- ★ Huge profit potential
- ★ Low upgrade and maintenance costs
- ★ Simple system management
- ★ Virtual Reality is today's **HOTTEST ATTRACTION!**

PLAYERS SEE, HEAR & FEEL THE EXCITEMENT

Because the Virtual Voyager utilizes the latest PC games, players will be able to immediately enjoy full gaming action with their current favorite computer games. Players will SEE the difference, HEAR the excitement, and FEEL the power of their favorite virtual worlds.

- ★ Familiarity of games attracts customers
- ★ Exciting appearance appeals to, and entices customers
- ★ Immerse yourself in virtual worlds
- ★ Actually FEEL the hits and action as you play

UPGRADEABLE

By utilizing today's latest PC games and computer technology, the Virtual Voyager can continually be upgraded without purchasing new expensive custom computer systems.

- ★ Upgrading made easy and cost effective
- ★ You can upgrade the computer system as technology develops
- ★ Never need to change the Virtual Voyager base unit
- ★ Network a group of Virtual Voyagers for head to head competition & increased excitement

SMART DESIGN

The smart design of the Virtual Voyager allows easy system management, simple installation and minimal maintenance.

- ★ Narrow fiberglass body construction for small entrances
- ★ Internal mounted shocks for easy lifting (less than 1 pound)
- ★ Forced air ventilation
- ★ F-16 joystick & throttle, with VR headset
- ★ Daily time log tracks time and eliminates play theft

3 Position Handles

For effortless hatch lifting and entry.

Ergonomically Designed

Molded armrests and comfortable seat enables longer game play.

Heavy Castor Swivel Wheels

For simple transport and portability. Locking wheels allow stationary positioning.

Tinted Window and Lift Top

Creates sense of seclusion & provides gaming privacy.

Monitor and Keyboard

Hidden in rear for easy access (is not required in command center set-ups).
